GALA Solutions Ltd

Your Coding Specialist & Partner

iJet

- Intuitive single head printer for coding on multi substrates
- Competitively priced for primary packaging applications
- Stainless Steel construction housing our patented "click and print" cartridge technology
- Integrated photocell for easy product detection
- iLOGIK operator guidance and OLED display simplifies menu navigation
- High linear speed and print frequency capabilities

X2Jet & X4Jet

- Multi-function controller capable of managing up to 4 printheads
- Heads can operate in a stacked or independent configuration
- Stand-alone system with on board message creation through either a TFT display with keyboard or touch screen interface
- Animated graphics for simple operation
- Remote connectivity via Ethernet, USB, RS232 or wireless router
- Capable of controlling 3 different coding platforms to suit any application. TIJ, Piezo and Xaar technologies.

X1Jet

- Our most compact single head printer
- Integrated photocell for easy product detection
- Competitively priced to suit the tightest budget
- Simple 3-button operator interface with LED input indicators
- Remote connectivity via Ethernet, USB and RS232 ports
- Message creation and editing controlled through i-Design software
- Ideal solution for simple primary and secondary coding applications

iDesign Graphic Software and Ink Options

The GALA Solutions Ltd systems come with iDesign, an easy to use graphics program allowing you to break free from normal inline imaging constraints. iDesign incorporates true type fonts and logo files so you can create truly bespoke messages. It also works alongside external databases and allows you to control ink consumption and production feedback over an unlimited number of managed printers.

We also offer a wide range of multi substrate inks suitable for both porous and non-porous surfaces or other parameters like long throw, various colours, deep contrast, high resolution, UV resistance, UV detection and much more.

At GALA Solutions Ltd we are not just about epic reliability; we're about unprecedented flexibility too.
